Cryptography

Stego 1 (Easy)

This challenge evaluates the contestant's ability to use basic tools to find messages hidden with steganography. An image was altered slightly to embed a hidden flag somewhere in the raw binary of the image. This message can be found by using the "strings" program for Linux. The following command will reveal the message:

```
strings NCL-2015-STEG1.jpg | grep NCL
```

Question	Answer
What is the hidden flag in the image?	NCL-GNU-1953
